

renew our world

We are a global community of people doing justice as we follow Jesus. Together, we love our neighbours, care for creation, and help shape a fair and sustainable world for all.

Tearfund Ireland is part of the Renew our World campaign and we are inviting you to join us as we embark on a mission to mobilise and take action on issues of sustainability and climate justice.

The impact of climate change can be felt in every country in the world and the poorest nations are the most effected. They are also the least responsible. The increasing occurrence and intensity of extreme weather events like drought, floods, and hurricanes drive people from their homes, jeopardise their livelihoods and leave communities in desperate situations. Climate change increases the risk of conflict, hunger and poverty. But it does not have to be this way.

Renew our World is bringing people together from all the over the world to unite our voices in a global worship campaign. This will culminate with the delivery of a song petition representing the voices of Christians all over the world, asking our global leaders to keep their commitments on tackling climate change.

But we cannot do this without your support, prayers and most of all your voices! So if your church likes to sing and you care about keeping the world's poorest from falling deeper into poverty then this is for you!

We invite you to follow the journey, learn the new worship anthem, record it and then post to social media! For more information contact Gemma Kelly: gemma.kelly@tearfund.ie or Emma Lynch: emma.lynych@tearfund.ie

*Renew our World is a growing community of Christians taking action in Zambia, Australia, India, Peru, Brazil, UK, Nigeria, USA, Europe and beyond. The campaign is led by Tearfund, the World Evangelical Alliance, Anglican Alliance, Micah Global, Peace and Hope and many other Christian groups and churches around the world.
