## Connecting

#### CONSTITUTION OF THE DRUMALIS ENVIRONMENT GROUP

#### AIMS:

- To educate in environmental responsibility locally, nationally and internationally
- To change attitudes towards the whole community of life and widen the concept of right relationships within the community.
- To provide a forum for networking and the exchange of ideas between local, national and international groups.

#### OBJECTIVES:

- To organise events to inform and promote right relationships between all people.
- To organise at least one annual conference and summer school which will educate in ways of treating each other and the resources of the earth.
- To give people opportunities to experience healthy, wholesome lifestyles free from the frenzy of consumerism and to avail of open space and the natural world.

#### How we will achieve our objectives:

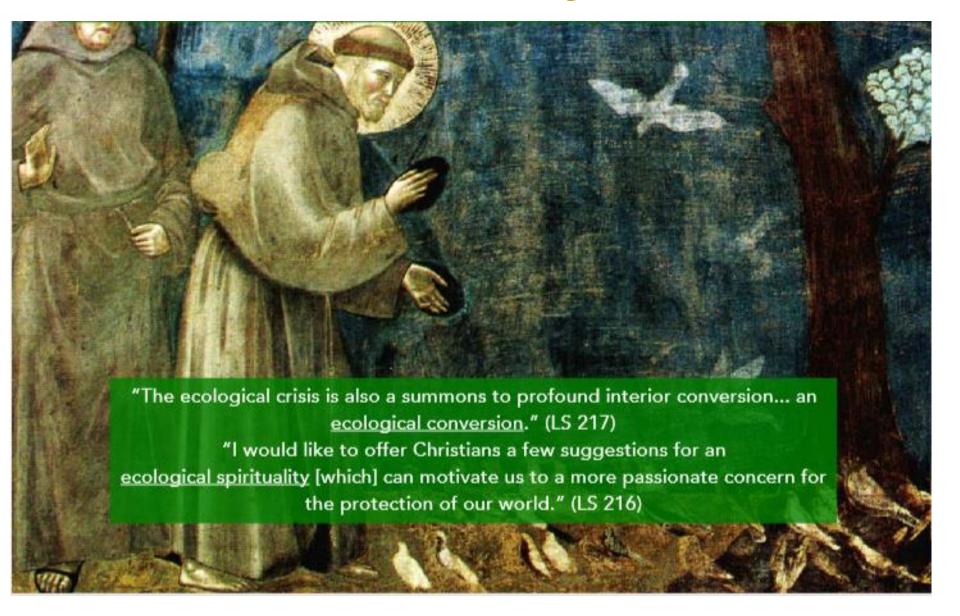

- By organising, publicising and hosting
  - lectures and practical events
  - (ii) an annual conference
  - (iii) an annual summer school
- By networking with other similar groups and drawing on the expertise of experts who support the aims and objectives
- Modelling sustainable lifestyles.
- By liasing with local community groups especially with those resident in deprived wards with little access to open/green space to generate interest in and promote access to a healthier environment
- By accessing help from other community groups, government and council support systems for community groups and relevant charitable bodies, especially in the generation of publicity material and distribution.
- By building up a resource centre of books, exhibits, materials, magazines, DVDs, videos and housing it in a central fixed location for general access.
- By engaging volunteers to promote this work.
